```
1 // declare a variable
2 let count = 10;
3 console.log("Initial value:", count);
4
5 // Increment the value by 1
6 count++;
7 console.log("After increment (count++):", count);
8
9 // Decrement the value by 1
10 count--;
11 console.log("After decrement (count--):", count);
12
13 // You can also use prefix increment/decrement
14 ++count;
15 console.log("After prefix increment (++count):", count);
16
17 --count;
18 console.log("After prefix decrement (--count):", count);
19
```
